Goldendoodles are an increasingly popular mix of two of America's favorite dog breeds, the poodle and the golden retriever. Wine Country Goldendoodles breeds miniature goldendoodles which are a mix of miniature poodle and golden retriever, and range in size from 22-45 pounds. This well-dispositioned breed is a light shedder and a great choice for families suffering from allergies. Wine Country Goldendoodles has a mini poodle stud and a number of female golden retrievers available for breeding. The kennel focuses on early socialization of puppies and strongly encourages positive reinforcement training. In order to ensure a good home for the dogs, references are required from all prospective buyers.
